Technical Skills

Languages: JavaScript (ES6+), TypeScript, Python, HTML5, CSS3

Frontend: React.js, Next.js, Redux, Tailwind CSS, Bootstrap, React Native

Backend: Node.js, Express.js, FastAPI, RESTful APIs, Supabase

DevOps & Tools: Git/GitHub, Docker, VS Code, Postman, Vite, npm/yarn, Google Apps Script

Recent Experience

Freelance Web Developer

Dec 2025 – Present

Self-Employed | Remote

- Completed two paid client projects: rebuilt Global Tourist Centre website with multilingual support and developed Techjeeva funding platform for FIIRE Forum (Forum for Innovation, Incubation, Research and Entrepreneurship).
- Learned and implemented SEO best practices including Schema markup, Open Graph tags, robots.txt configuration, and XML sitemap generation to improve search visibility.

Ayyott

Dec 2025 – Jan 2026

Sales Intern | North Goa

- Practiced B2B sales outreach through cold calling, WhatsApp messaging, email campaigns, and LinkedIn DMs to promote text AI agent product.
- Generated two qualified leads through consistent outreach efforts, gaining practical experience in handling client objections and understanding product-market fit challenges.

GEC Coders Club

July 2025 – Present

Event Coordinator

- Organized technical workshops and coding competitions, including specialized "Getting Started with Hackathons" sessions to help junior students enter the competitive coding space.
- mentored juniors on tech fundamentals and hackathon participation strategies.

Projects

Global Tourist Centre – Multilingual Travel Website Rebuild

2025

Next.js 14 | Tailwind CSS | i18n

- Rebuilt tourism website from scratch using Next.js 14, adding support for four languages (German, Russian, French, Italian) with custom translation system and dynamic routing.
- Added WhatsApp chat button across all pages and built promotional features like pop-ups and countdown timers to boost customer engagement.
- Improved overall UI design with Tailwind CSS and modern components, delivering a polished final product that exceeded client requirements.

Techjeeva - Funding Scheme Platform

2025

React.js | Google Sheets API | RESTful API | Responsive Design

- Built full-stack platform that converts Google Sheets data into REST API using custom Google App Script backend.
- Created React frontend with search and filter features that improved data loading speed by 10%.
- Set up automated sync between spreadsheet updates and live website data.

Ride Buddy – Carpooling Platform

2025

React.js | Firebase | Redux | Tailwind CSS | Authentication

- Developed carpooling application with Firebase backend with real-time updates.
- Implemented Redux for state management across the app and integrated Firebase authentication for secure user login.

Education

Goa College of Engineering

June 2024 - 2028

B.E. in Computer Engineering

SGPA: 9/10

Achievements

- 2x Hackathon Winner** – 2026 Orix McLaren Hackathon, Goa University Hackathon 2025
- 5x Hackathon Participant** specializing in rapid prototyping and startup-style execution under 24 hours
